

Advanced Technology. Simple Solutions.

SLOPED RECEPTACLE HEAD WITH 2-INCH HUB

EVET-SR

This pedestal head provides a simple solution for parking lot power by attaching to 2-inch threaded conduit. The 45-degree sloped design provides protection as required in the 2012 CEC. Galvanized steel construction provides additional corrosion protection.

Features / Specifications

- Complies with Rule 26-702 of the 2012 CEC
- CSA Type 3R rated
- Drip-lip provides additional weather protection
- 2-in bullet hub to attach to threaded conduit
- Galvanized steel construction
- Mini-breaker protection where required
- Head with bottom hole only (add -NH to P/N)
- PC101 Grey powder coat finish
- Ground lug
