Advanced Technology. Simple Solutions.

PARKING LOT PEDESTAL WITH FEED-THRU LUGS AND WHILE-IN-USE COVER

EVVF

This family of parking lot pedestals is a convenient way to distribute power in parking lot applications. The product line includes branch rated breakers, feed through terminal blocks, and receptacles with a while-in-use cover. Standard PC101 Grey powder coat provides a durable finish. A Type 3R rating allows for use in both outdoor and indoor applications.

Features / Specifications

- Galvanized steel construction
- CSA Type 3R rated
- 30 in. H pedestal
- While-in-use flip lid cover
- Standard splitter blocks #14-2/0 AWG
- 10kAIR branch rated breaker protection
- Commercial-grade receptacles
