# TELECOM TERMINATION PEDESTAL

## SG

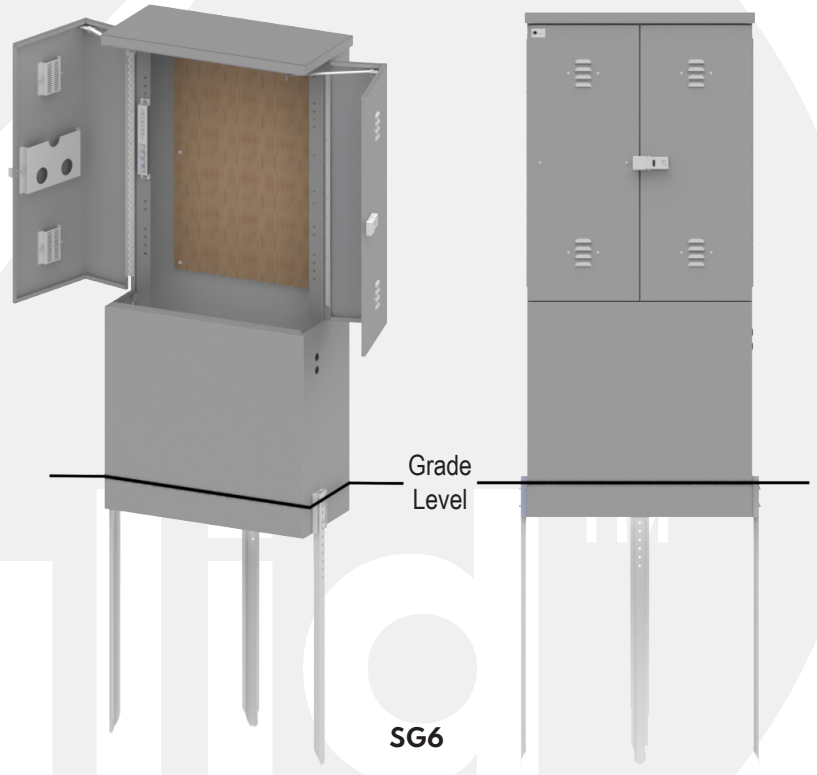

This family of Telecom Termination Pedestals is an easily installed pedestal ideal for TV, cable, and telephone, as well as fibre optics and cross-connect applications. These direct-burial pedestals with ground stakes are available in single and double-door designs as well as back-to-back configuration. The 14-gauge galvanized steel body construction offers additional corrosion resistance. PC116 Telco Green powder coat paint offers a durable finish.

### Features / Specifications

- 14-gauge galvanized steel construction
- Padlockable hasp
- Ground stakes with mounting hardware included
- 5/8-in plywood panel
- Ground bar termination
- Louvers with filtered ventilation
- PC116 Telco Green powder coat finish

### Options

- Concrete pad-mount
- Custom powder coat colours
