## POWERING FILM PRODUCTIONS

Phase power monitoring and balancing is done through the integrated LED's and easy to read displays, phase imbalances are displayed through the neutral monitoring device. The main breaker provides isolation to the load and the contactor provides additional control and protection for the downstream load.

### FEATURES

- Marine-grade aluminum construction
- Type 3R rated
- Indicator lights to identify there is active power on each phase
- 3 Analog ammeters display active current for phases A, B and C
- Digital Ammeter displays active current for neutral
- Main breaker with lock-off safety
- Colour-coded Cam-lock connectors

▲  
Type 3R rated enclosure

▲  
Cam-lock connections

▲  
Meters to display power and current
