

Advanced Technology. Simple Solutions.

UPS14

The NEMA 3R enclosure is designed for MOT Ontario to house four large batteries at an intersection controller. It is another variation in the UPS family of control cabinets for applications where a narrower width is required.

Features / Specifications

- 304 (#4) stainless or marine-grade aluminum construction
- Aluminum enclosures are powder coated PC101 Grey
- NEMA 3R rated
- Padlockable 3-point latch mechanism on door
- Stainless steel piano hinge
- Cross-broke roof with drip lip
- Filtered louvers
- Pole or base mount
- Two shelves designed for large batteries
- ETL-certified to applicable CSA and UL standards
- MOT Ontario-certified
- 1/8-in marine-grade aluminum construction

Options

- Pole-mount brackets
- Base-mount brackets
- Custom powder coat colors

Benefits

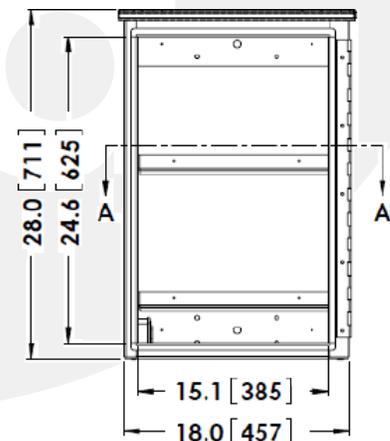

The cabinet can accommodate a UPS and up to four batteries, and its shelves make it a handy general-purpose, weatherproof cabinet for other applications as well.

PART NUMBER	HEIGHT	WIDTH	DEPTH	MATERIAL
UPS14A	28 in	18 in	15 in	ALUMINUM
UPS14S	28 in	18 in	15 in	STAINLESS STEEL
