

AutoTarp System

Designed to be as light and unobstructive as possible, this button-controlled system avoids reduced payload and loading volume. Above all, it keeps drivers safe and on the ground.

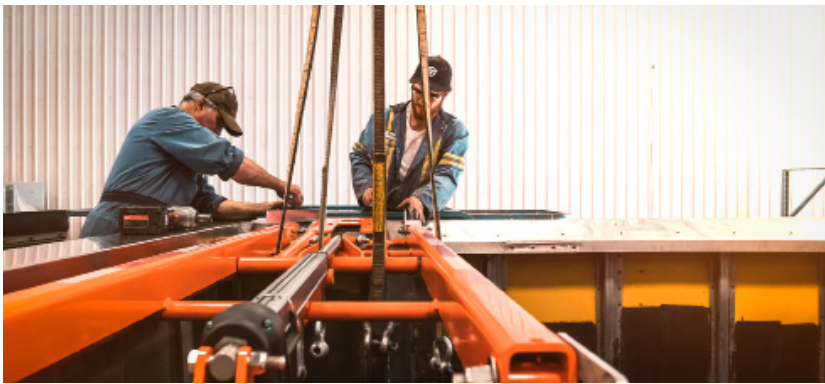

Advanced Technology. Simple Solutions.

1-888-632-6477 sales@validmfg.com validmfg.com

FEATURES

- Tarp effortlessly covers mounded loads
- One-touch operation allows drivers to keep their boots on the ground and avoid falls and stumbles
- The 24V Valid AutoTarp ultracapacitor system is installed in each trailer
- No modifications to the truck or trailer wiring are necessary
- Full 2 arm system
- Unimpeded loading

▲ Improved control system allows for easy operation, monitoring and trouble shooting.

HIGHLIGHTS

- Lightweight
- Designed for safe operation
- Retrofittable for any trailer including Tycrop and Titan
- Online [training video](#) available
- Ultracapacitors are an extremely safe method of energy storage compared to lithium-ion batteries
- Ultracapacitors perform well in extreme weather conditions

SPECIFICATIONS

- 2 arm system add approximately 550lbs per trailer
- Fitted with electric actuator
- Patented linkage system embedded within the trailer extends 50 inches above cap when opening and closing

“When you select Valid as a supplier, you get a partner that is committed to your long-term success.”
